The members of the Sanitary Survey Corps, which is at present in the city, will speak on Sunday morning. Every man in the city is invited to attend.

Tires that did not require setting in thirty years—on a Studebaker

WHEELS are the life of a wagon. Hubs, spokes, felloes and tires of the best materials, put together by skilled workmen, go into every Studebaker.

What is the result? Mr. William H. Horton, of Nineveh, N. Y., writes that the tires on his thirty-six year old Studebaker farm wagon did not need resetting in thirty years—and the wagon was in use every day.

We can prove to you that this is not an exceptional Studebaker wagon. There are thousands of Studebaker wagons in use today that are forty years old and more. And that have cost their owners little or nothing for repairs.

Come in and look over our stock of Studebaker vehicles. Let us show you how well they are built.

Studebaker wagons are sound investments, every time

POTATOES AND PREPAREDNESS

It seems definitely settled that our prime contribution to the war shall be food. Regiments must be armed with hoes as well as with guns, and horses will be needed for plowing before they are for battle. A back-to-the-land enthusiasm is sweeping the country, any many are planning to desert desk and bench to follow the calling of the man with the hoe.

Few of the enthusiasts to realize the far-reaching effects of this movement, and before we have gone too far in our zeal it seems wise to consider the results upon industry in general. The one great danger is that many in the first flush of enthusiasm will desert their present occupations, in which they are most useful, to try an agricultural experiment for which they have neither training or aptitude. This will mean a shortage of labor in manufacturing, the result of which at this time might be disastrous. The cost of these experiments, not only to the individual but also to the nation, must also be considered. Seeds would be wasted, fertilizers, containing valuable chemicals sorely needed in ammunitions, would be used, and the land occupied by these well-meaning amateurs for a whole season could be more efficiently tilled by more skillful farmers.

These are the great dangers of our latest national movement, but in spite of them there are great advantages. That the ancient and honorable profession of farming will once more be raised to its lawful position of honor we do not doubt; and it is also probable that many who take to tilling the soil as a means of doing their bit in war-time will make it a permanent occupation. What this means to the individual in health and happiness cannot be readily estimated, nor can its effect upon the high cost of living. But the more immediate effects are definite and tangible. Production of farm implements, fertilizers, and needs will be stimulated until the demand threatens to exceed the supply. Invention will profit, for the shortage of workers makes labor-saving devices an economic necessity. The scarcity of horses calls for tractors, but smaller and cheaper models are required, for while few appreciate the difficulties of farming, fewer still know how to overcome them.

The manufacturers' share in this movement to feed the world falls directly to those making implements, fertilizers, and farm supplies; and every effort of these men that results in helping the farmer to make two potatoes grow where one grew before will be a genuine contribution to our national preparedness.—American Industries.

CORN BREAD AND WHEAT

One part of corn meal mixed with three parts of wheat flour makes a good and wholesome bread for those who imagine that they must have bread made of wheat flour. But there's no bread more wholesome or more palatable than all-corn bread, properly made. Those American housewives who don't know how to make good corn bread—the kind that every befo'-de-war mammy concocts—should correct this error in their culinary education. The wheat crop this year will be small, but the corn crop will be large. We ought to consume thirty per cent. more corn and fifty per cent. less wheat this year to effect a balance. We will be the gainers by the change in every way. A large proportion of us will learn how unfounded have been our prejudices against corn meal as an article of human consumption, the lessened domestic demand for wheat flour will keep the prices nearer the normal level, and there will be more wheat to send our European allies who are sorely in need of it.

ECONOMIC RUIN FACES RUSSIA WITH END OF WAR URGED AS RELIEF

Petrograd, May 28, via London, May 29, 1:50 a. m.—The industrial crisis in Russia is so acute, that, according to a recent statement of Minister of Finance M. Shingareff, only a miracle can save the country from economic ruin. The demands of the workmen were so enormous, he declared, that it seems impossible to keep the industrial wheels going for any great length of time.

The Socialist minister at a recent ministerial conference said that the only possible way they saw of settling the difficulty was to bring the war to a close.

U. S. PLANS TO EMERGE FROM WAR FINANCIALLY STABLE

Washington, May 29—To enable the United States to retain its present supremacy in international finance throughout the war—an aim with which the Entente powers are understood to be in full accord—and to emerge in a strong financial condition afterward, officials have in mind the enforcement of a program, the salient features of which are:

The vital closing of American money markets to further foreign government bond issues throughout the war. The stabilizing of business conditions so far as possible by the contemplated international purchasing board.

PEACHBLOWS POTATOES for June Planting Call ann Engage Them Before All Are Sold. **M. C. Russell Co.**

Vivian Martin in THE SPIRIT OF ROMANCE Friday at WASHINGTON

Abby Lou Baynard, a maid of all work in the antique shop of Richard Cobb, a testy old man, is merely a little drudge. Tom Cobb, his son, is an inventor and has just perfected a tea kettle which can not boil over. Joseph Snow is a grumpy old millionaire who knows his relatives are just waiting for him to die so that they can enjoy his fortune. One day in the antique shop he meets Abby Lou, breaks a vase, but she refuses to take Snow's money. That night at home, Snow, whose love of romance had prompted him to fill his house full of secret rooms, sliding panels and the like, decides to pretend he is dead, conceal himself in one of the hidden rooms and there see what will happen to his wealth. He leaves all of his fortune to Abby Lou. She takes possession of the big house and believing Snow the greatest and wisest of all men, proceeds to spend his money as she thinks he would like it spent. She takes some of his relatives to live with her, induces one of them to go to work, advances money to Tom for the promotion of his invention, feeds candy to all the kids in the neighborhood and does a great deal of good, changing the money-seeking relatives into good and lovable people. When Snow, through his peep holes, sees what a great amount of good the little girl has done, he decides to come back to life and startle them all. He appears a changed man and goes on with Abby Lou's kindnesses. Tom's invention proves a success and he comes to tell Abby Lou of his gratitude. Her old love is re-kindled and everyone is happy.

C. & O. Railroad Asks for Advance in Freight Rates—Some Figures Showing Expenses of System.

George W. Stevens, President of the Chesapeake and Ohio and Hocking Valley Railway Companies, in a recent statement before the Interstate Commerce Commission in the matter of the proposed advance in freight rates now pending before the Commission, stated that, like other carriers and Companies he represents are confronted with an enormous increase in operating expenses by reason of the recent Adamson wage law affecting train and engine men, and which is also reflected in the wages of other employees, together with the increased cost of fuel and other purchases necessary for the maintenance of the property. It is essential that the road and equipment should be maintained to the highest degree in order to meet present conditions.

As evidence of increasing expenses on the C. & O., the following figures, 1917 over 1916, are shown:

Increase in wages under recent wage law	\$851,395
Increase to unorganized labor, made necessary by increase to organized labor	142,266
Maintenance of Way (track men, etc.)	103,003
Maintenance of Equipment (shop men, etc.)	785,000
Material and supplies other than fuel and equipment	2,476,904
Railway fuel	1,461,295

Total\$5,819,933

Should the Commission grant the request for increased revenue on a basis of a maximum of 15c per ton upon coal, coke and iron ore, and 15c on other traffic, there would accrue to this company for twelve months from the first increase based upon the same tonnage handled during the year 1916, the following:

On Coal, Coke and Iron Ore	\$2,803,337
On all other freight	2,060,941
Total	\$4,864,278

GERMANS STEAL U. S. IDEA TO SINK BRITISH VESSEL

New York, May 30—Ideas embodied in Rear Admiral Bradley A. Fiske's invention of a torpedo launching sea plane have been "appropriated" by the Germans and were used by them in torpedoing the 3,000-ton British steamship Gena, off Aldeburgh, May 1, according to a statement given out here tonight by the Aero Club of America.

The torpedoing of the Gena was reported by the British admiralty. Two seaplanes participated in the attack and one was brought down by the British.

The charge of theft against the Germans is based on evidence received by the Aero Club today, the statement said.

CHINESE GOVERNORS DEBEL AT DISMISSAL OF PRIME MINISTER

Peking, May 30—Numerous military governors have demanded the cancellation of the presidential mandate dismissing Tuan Chi-Jui from the premiership, considering the president's action unconstitutional. Li Ching-Hai, whose nomination as successor to Tuan was approved by the Senate, has refused to accept the premiership.

The military governors of Honan, Onwel and Huan Tung provinces and at Mukden have threatened to declare their independence unless their demands for the cancellation of the mandate are conceded.

URIC ACID IN YOUR FOOD

Maysville People Must Learn the Danger of a Heavy Meat Diet.

Even dogs can eat too much meat. Certainly, many people "dig their graves with their teeth." Few get enough exercise to justify meat more than once a day. Meat brings uric acid. The kidneys try hard to get rid of that poison.

But often a backache or some other unusual ill will show that the kidneys need help.

The time-tried remedy, then, is Doan's Kidney Pills.

The remedy backed by Maysville testimony.

Read this case.

Mrs. W. A. Schatzmann, 605 E. Second street, Maysville, says: "From the benefit I have received from Doan's Kidney Pills, which I buy at Chas. Dr. Snow's Drug Store, I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered from weakness and lameness in the small of my back, I have used Doan's Kidney Pills. They have always proven sufficient to quickly cure and attack."

Mrs. Schatzmann is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Schatzmann uses—the remedy backed by home testimony.

WOMEN URGED TO AID IN SALE OF LIBERTY BONDS

Washington, May 30—An appeal to all American women to make personal campaigns for the sale of Liberty Bonds was issued tonight by the Women's Liberty Loan committee of which Mrs. W. G. McAdoo is chairman.

The committee is arranging to launch a whirlwind campaign in the large cities during the last week that the subscription books will remain open and is utilizing the facilities of mail order and wholesale establishments to address a countrywide appeal to women to aid in the work.

East St. Louis, Ill., May 30—One negro was shot, one wounded slightly and two were beaten tonight by a mob of fifty men who, officials say, gathered in the outskirts of the city after the saloons closed at 6 o'clock. The mob was dispersed by militiamen and local police.

OUR COLORED CITIZENS

Since so many colored men have asked me about the registration Tuesday, June 5, and quite a number of interested white friends has requested me to speak to the colored men about this registration next Tuesday, I shall make a few statements about the registration Tuesday, June 5.

Colored men, married and unmarried, sick and well, short and tall, small and large, wrinkle or sound, with toes and fingers and no toes and fingers, hands and legs and no hands and legs, no matter what your physical condition is—all such colored men, living in Maysville, in Mason county, in Kentucky or in the United States between the ages of 21 and 31—must register next Tuesday, June 5, between the hours of 7 in the morning and 9 night. This registration is for colored men as well as white men. It is for both white men and colored men—there is no difference.

If your age is anywhere between 21 and 31 and if you are living anywhere in the United States you will be compelled to register. It is a law of the United States and ignorance is no excuse before the law.

The penalty for not registering next Tuesday, June 5, is one year in the penitentiary.

The United States officers who will be here next Tuesday, June 5, will without doubt have the name of every colored man in Maysville and Mason county who should register. Any one who tries to stop or persuade some one from registering—such an act will be considered treason and such a person will also be liable to a \$1000 fine and one year in the penitentiary or both.

I have written this article not to scare our colored men but to keep them out of trouble and to have them patriotic.

Sincerely,
W. H. HUMPHREY.

All members of Pride of Mason Lodge No. 79 K. of P. are requested to meet tonight at 7:30 o'clock. Three candidates to be given the rank of Page.

EMMITT PAYNE, C. C.
W. C. Patton, K. of R. & S.

Mr. J. T. Jones has returned to his home in Cincinnati, Ohio, after visiting his sister, Mrs. Lee Johnson of West Fourth street.

RECRUITING OFFICER TO REMAIN HERE

Just as he was preparing to leave Maysville yesterday morning, Recruiting Officer A. A. Austin of the United States Army, who has been stationed in Maysville for the past six weeks, received orders to remain in the river city for another month to secure recruits for Uncle Sam's land forces.

Mr. Austin has been very successful during his stay in the city. He secured a total of 21 recruits during the month of May which is considered an excellent record for Mason county as it has always been regarded as backward in sending men to either the army or navy. During his stay this month Sergeant Austin expects to get a large number of men. He advises all young men who are thinking of joining the army to see him before registration day and avoid the possibility of a draft. "Be a Went, Not a Sent."

Subscription almost raised. Mason county's allotment of \$400,000 worth of Liberty Loan Bonds has almost been reached, \$310,000 having been already subscribed by the citizens. As compared with other counties of this district, Mason is a good bit ahead. Robertson county is one of the few that has oversubscribed, \$25,000 being their allotment, \$30,000 their subscription. Bracken county has \$75,000 to raise, \$60,800 of which has been subscribed. Other surrounding counties have not been heard from.

FUNERAL OF MRS. DERSCH

The funeral of Mrs. Henry T. Dersch, who died at her home on West Second street yesterday morning at 3:15 o'clock, will be held from the late home Saturday afternoon at 3 o'clock. The services will be conducted by the Rev. J. C. Pileh, pastor of the German Lutheran Church and the Rev. Dr. John Barbour, pastor of the First Presbyterian Church. Burial will be made in the Maysville cemetery.

MEETING OF COLORED PEOPLE

The meeting of the colored people of the city last night in Scott M. E. Church, for the purpose of hearing the gentlemen of the Sanitary Survey Corps, discuss the Sanitary Survey. A large number of persons were present. The gentlemen explained that they desired full co-operation of the colored people in carrying on the work.

MAYSVILLE MAN ON COMMITTEE

Mr. S. P. Browning, secretary of the Ohio Valley Pulley Works, has been named as a member of the Committee on War Program of the Kentucky Manufacturers and Shippers Association. This committee will work in conjunction with the executive committee of the Chamber of Commerce of the United States.
